Notice To Residents

Bonnechere Excavating would like to inform you of a new project that we will be undertaking from August 1st until October 23rd in your area. Our team will be working on the Clyde Forks Bridge Replacement. The Bridge is located on Clyde Forks Road located at coordinates, **45.133833, -76.672726**.

During this project there will be a Full Road Closure of Clyde Forks Road from **August 8th** until **October 14th** and a detour will be implemented which will run along the K&P Trail as shown in the image above. We are aware this may cause traffic delays in the work area, and we understand this may cause some inconvenience. We apologize in advance for any disruption this may cause. Our team will make every effort possible to ensure that traffic continues to flow as smoothly as possible.

We want to assure you that we will be adhering to all relevant safety protocols and will take all the necessary precautions to ensure that the project poses no risk to the community. Regular updates on the project will be provided to keep you informed of any changes or developments.

The Detour Route can be seen on the next page. The Red Arrows and Blue Arrows will indicate the flow of traffic. The signage on the detour path will indicate the traffic flow and help the public along the route.

DETOUR PLAN

We appreciate your patience and understanding during this time and look forward to sharing the completed project with you. If you have any questions or concerns, please do not hesitate to contact the Project Manager (Travis Moreau) at 613-312-9874.

Thank you,
